June 2022 Foster Caregiver Survey Summary Report

Eighty-two foster caregivers were eligible for the annual June survey. The survey was distributed by email using an online link to a survey program. Fifty were started and forty-seven were fully completed. The overall response rate was 57%.

**Note: The same survey system and survey process were used in 2020 prior to the mandatory use of COA-designed surveys in 2021.

Participation by program was as follows:

Program	# Fully Completed	# Eligible	Completion Rate
Daytona Beach, FL	13	17	76%
GAE	9	11	82%
GAW	16	37	43%
Baltimore, MD	9	17	53%
Totals	47	82	57%

Highest Rated Topics

The following ratings are based on the responses submitted for these questions. Those responses marked “not applicable” were removed from the calculations.

Survey Statement	Rating
I understand the importance of training for my work with children and families.	100%
I believe the training NTF provides helps me be a better foster caregiver.	97.73%
My NTF case management team shows concern for the children in my care.	95.74%
I believe staff views my role as a foster caregiver as important.	95.45%
If I call the number I have been given for after-hour emergencies, the staff member that responds knows or knows how to find answers to the problems I called about.	95.23%
If I need to, I can contact my case manager or family advocate’s supervisor.	93.48%
